ILLVSTRISS. ATQVE
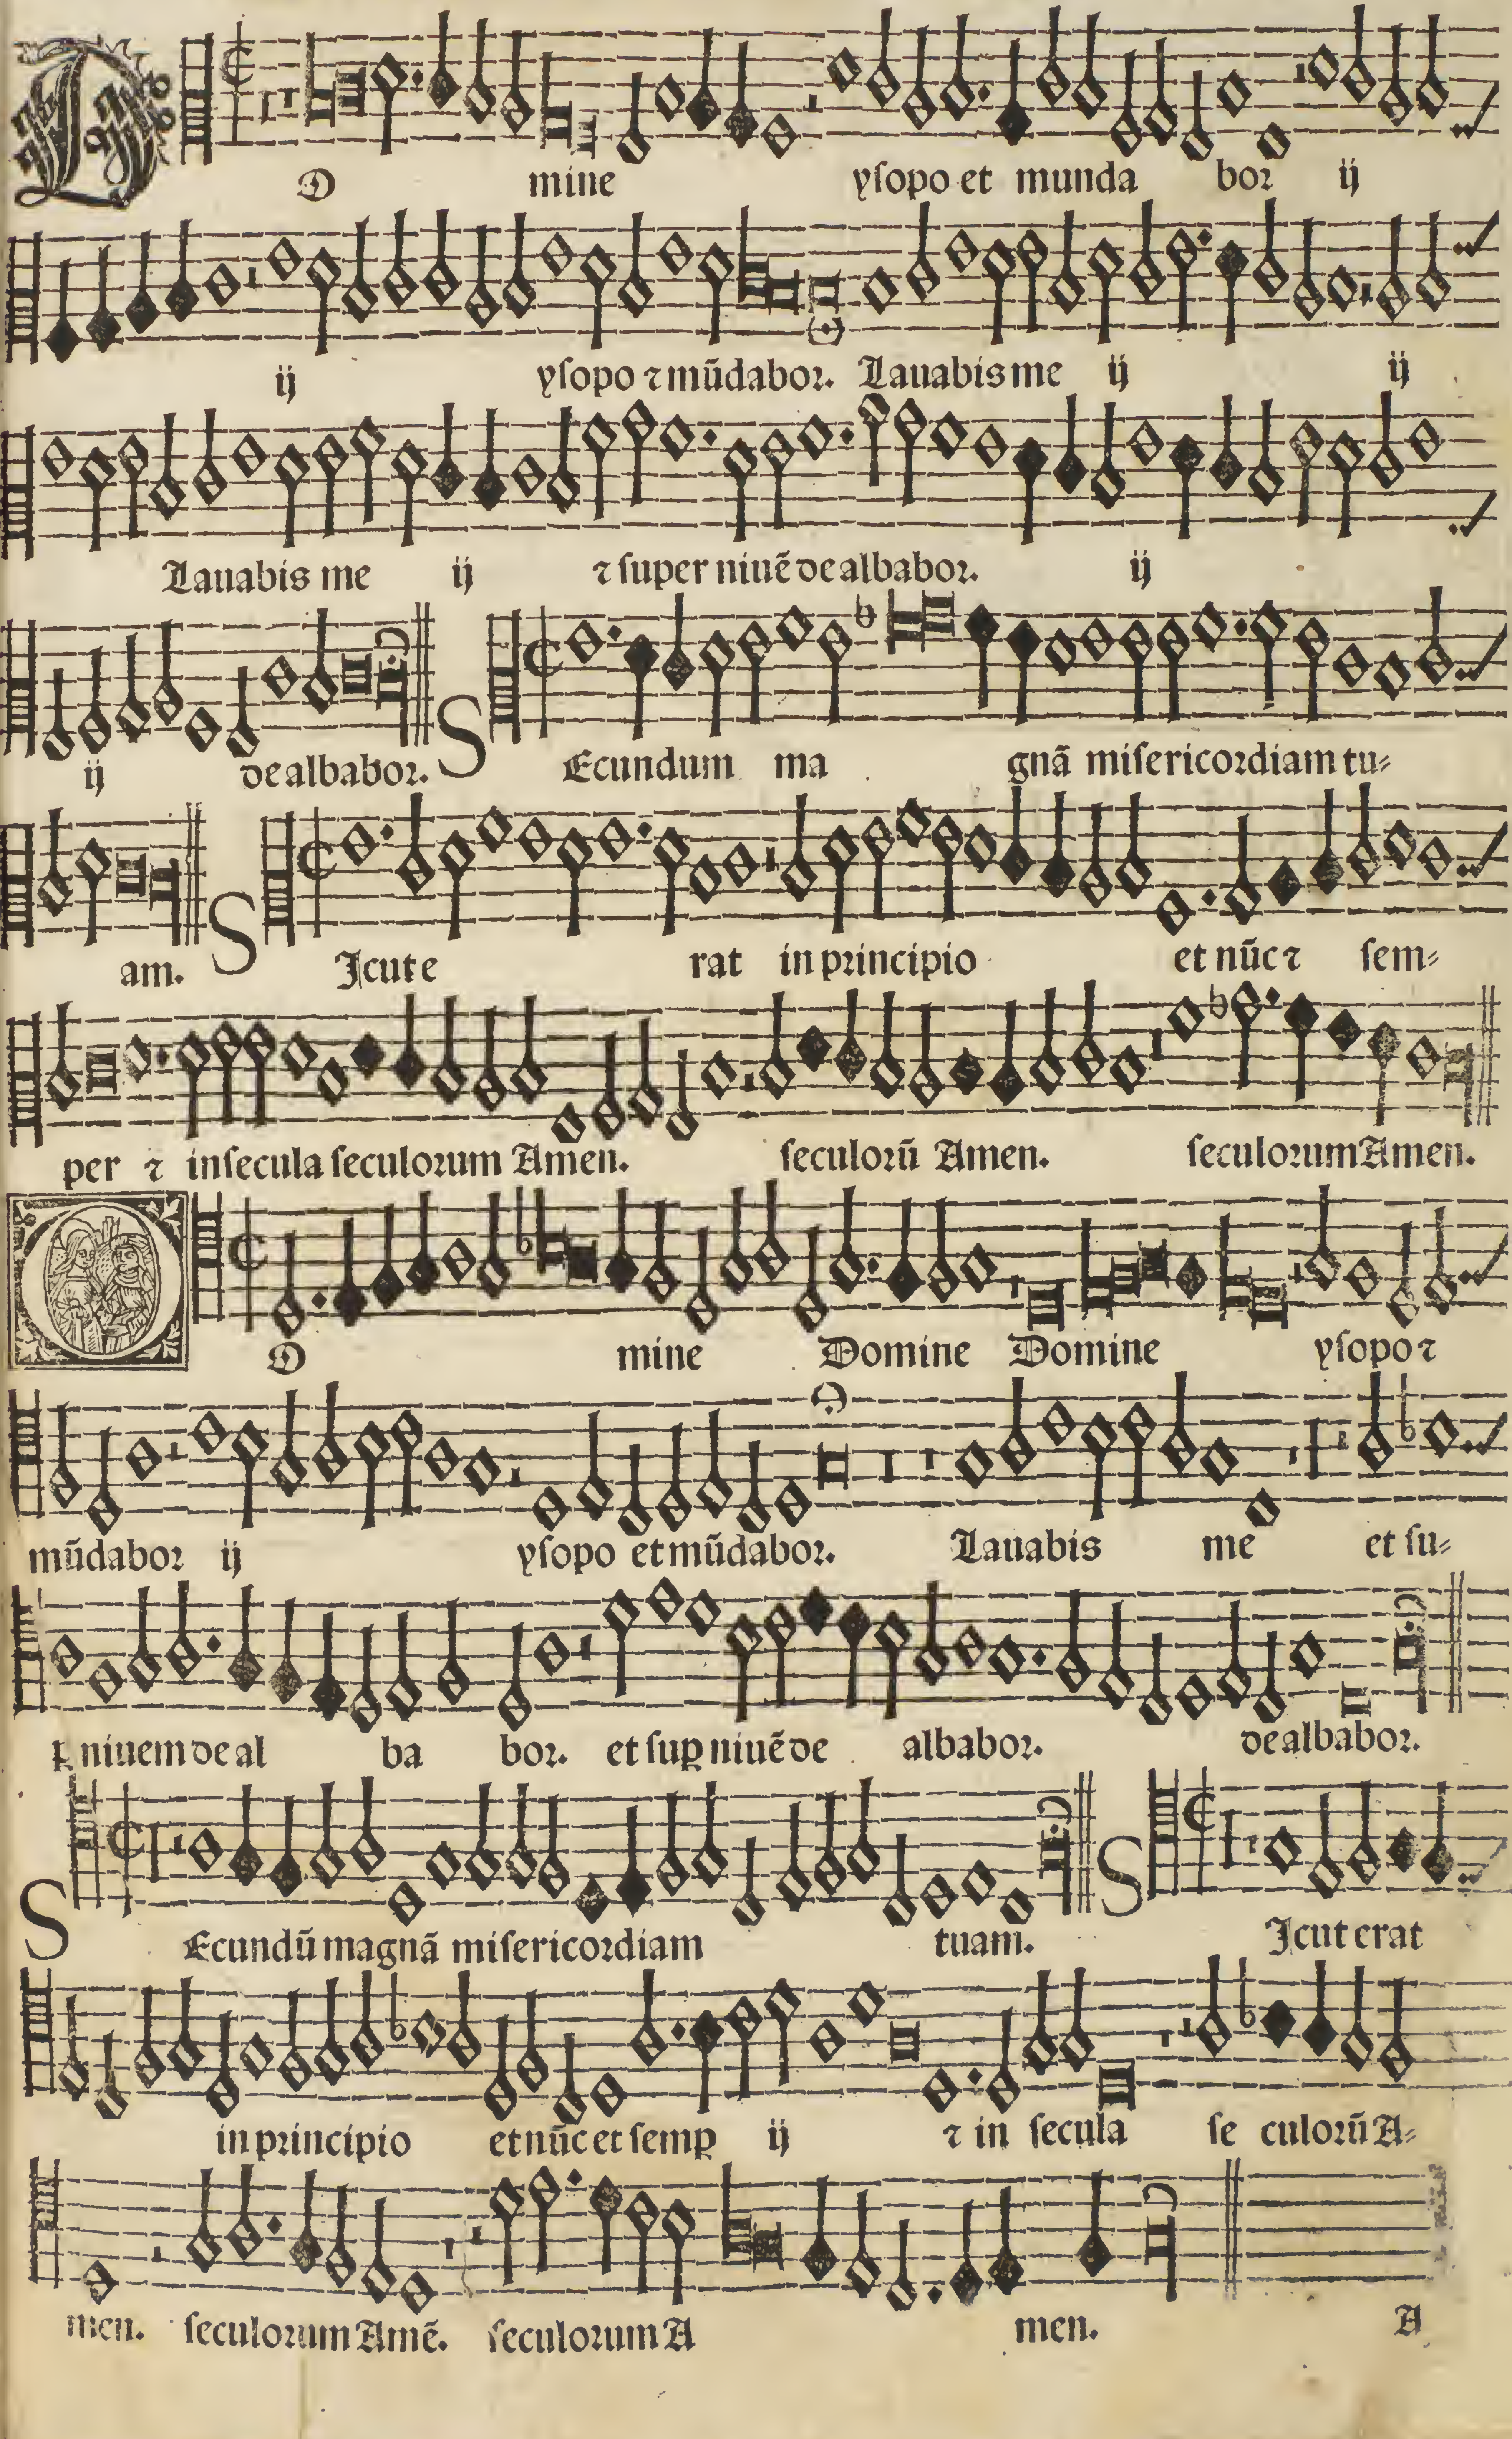

EXCELLENTIS. COSMO MEDICI FLOREN. DVCI
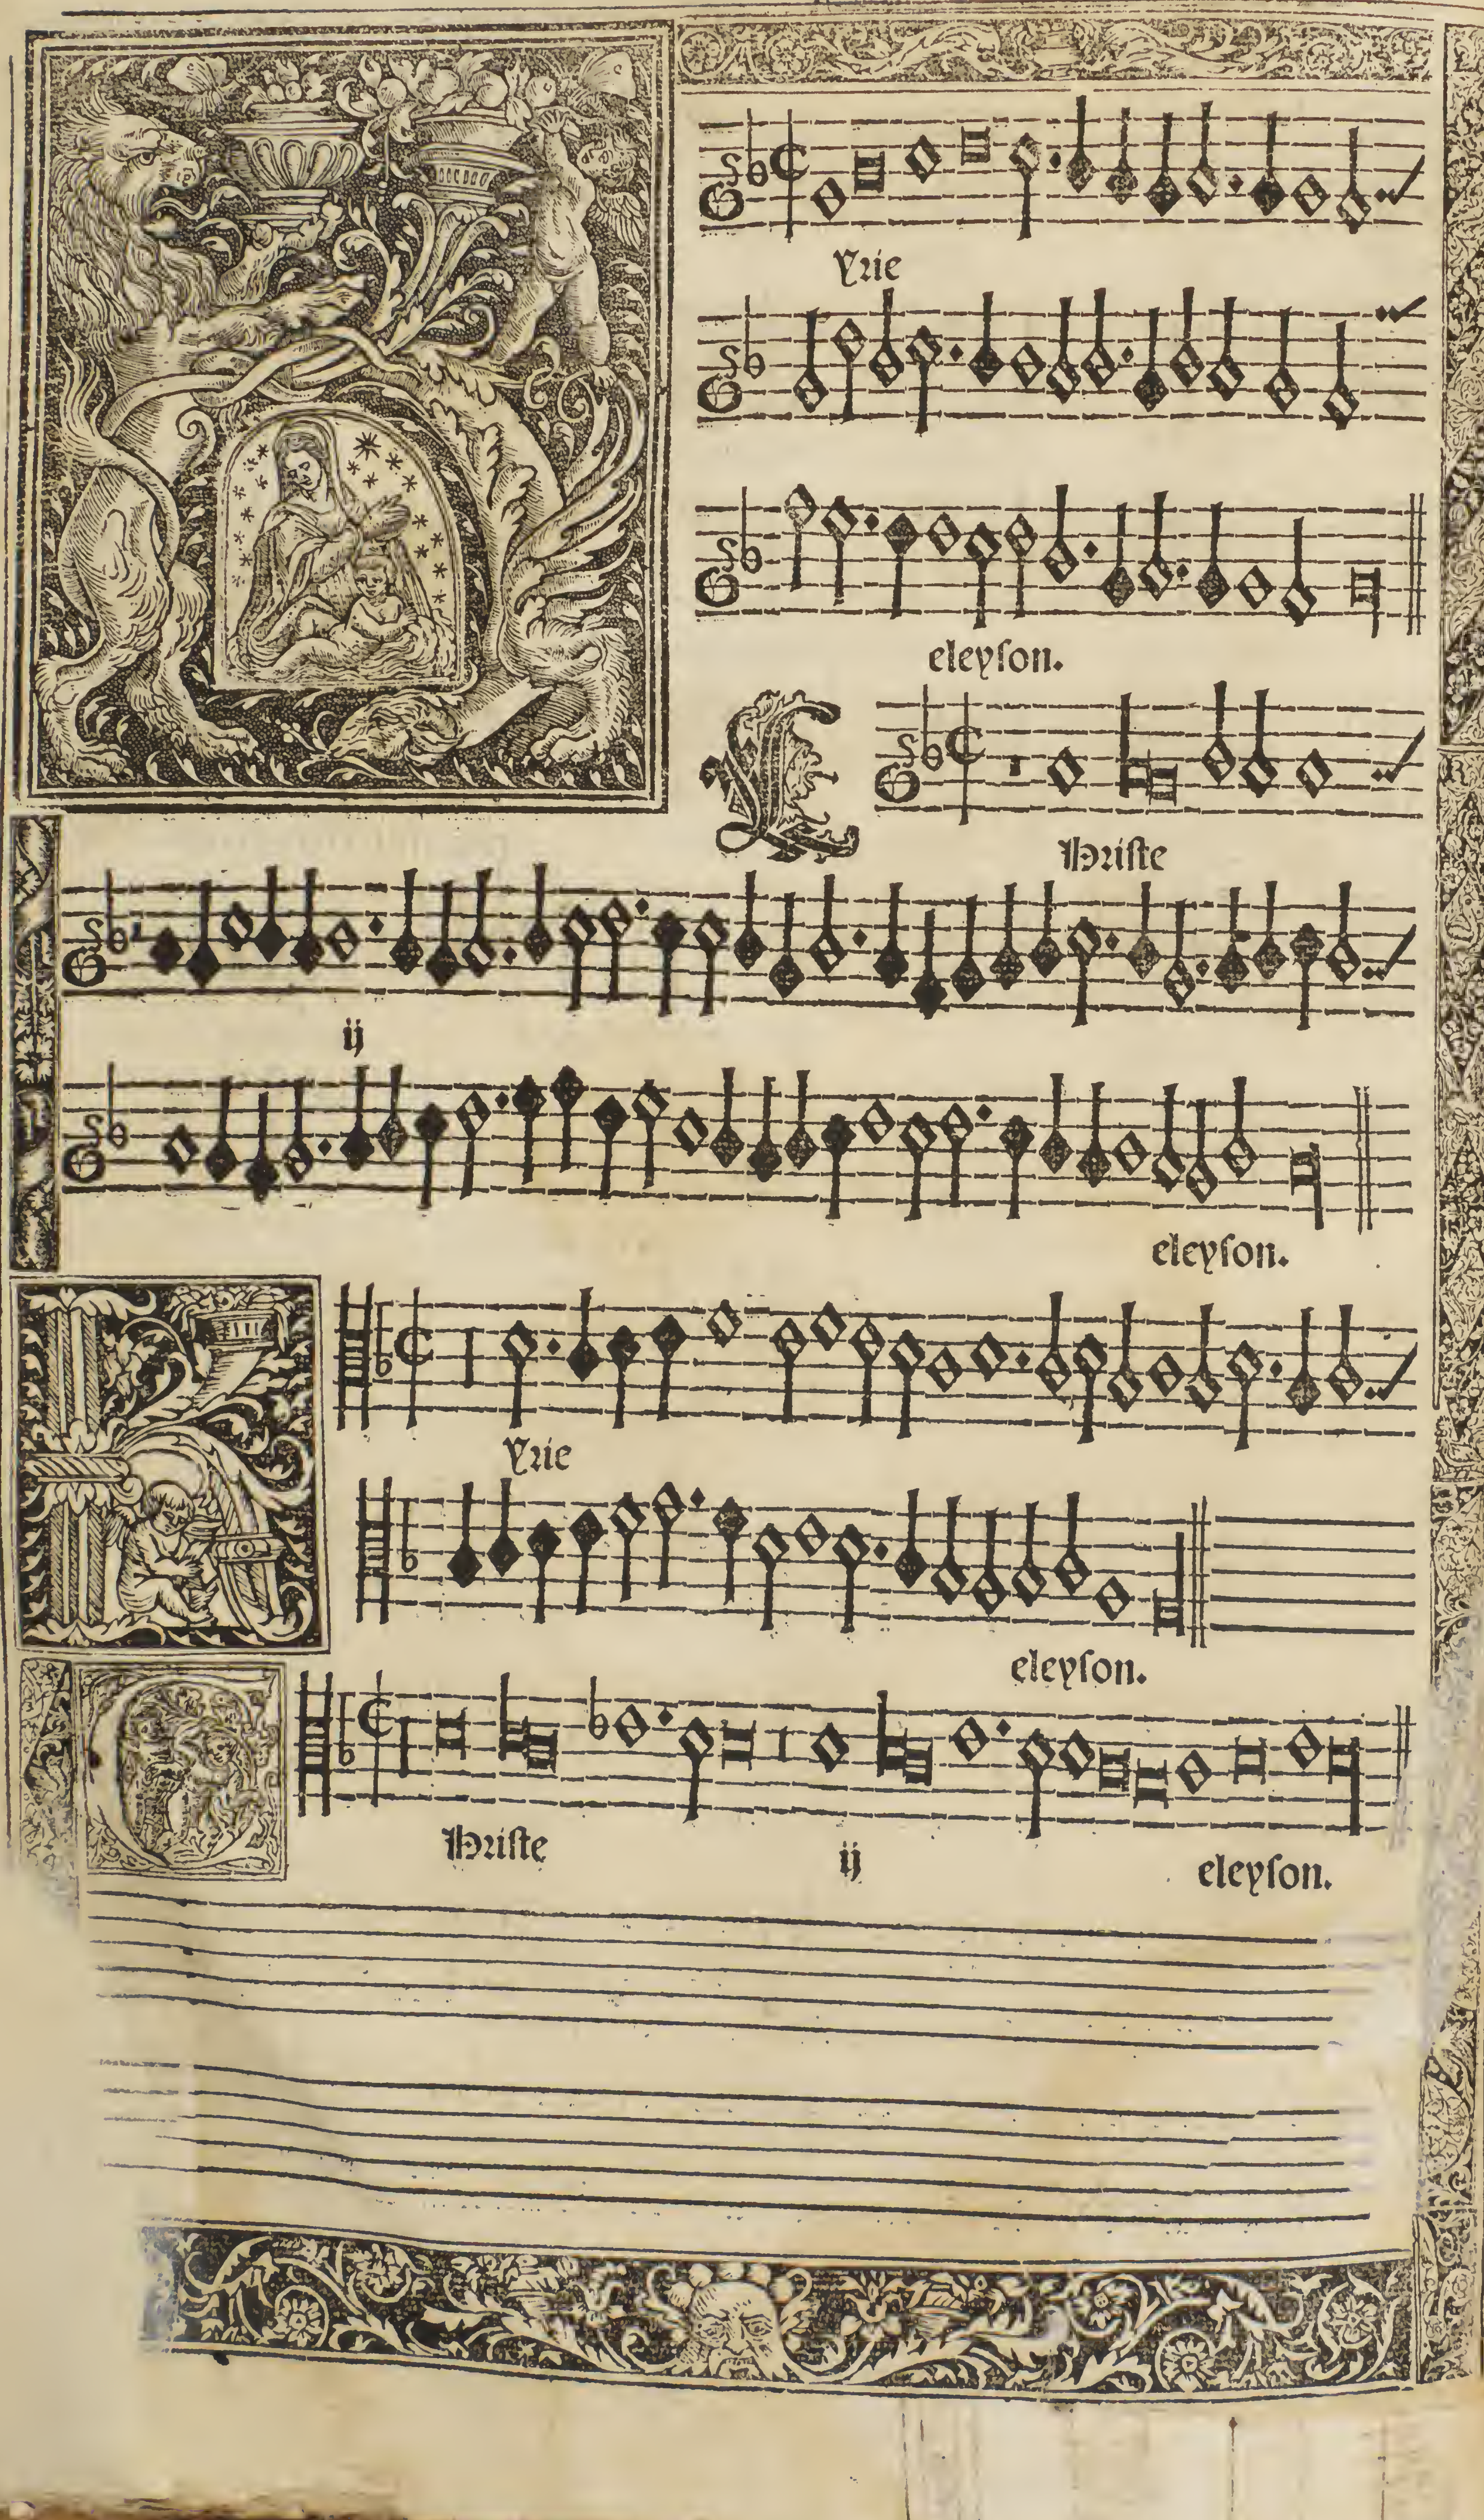

Chriſtophorus Morales Hyſpalenſis

S. D.
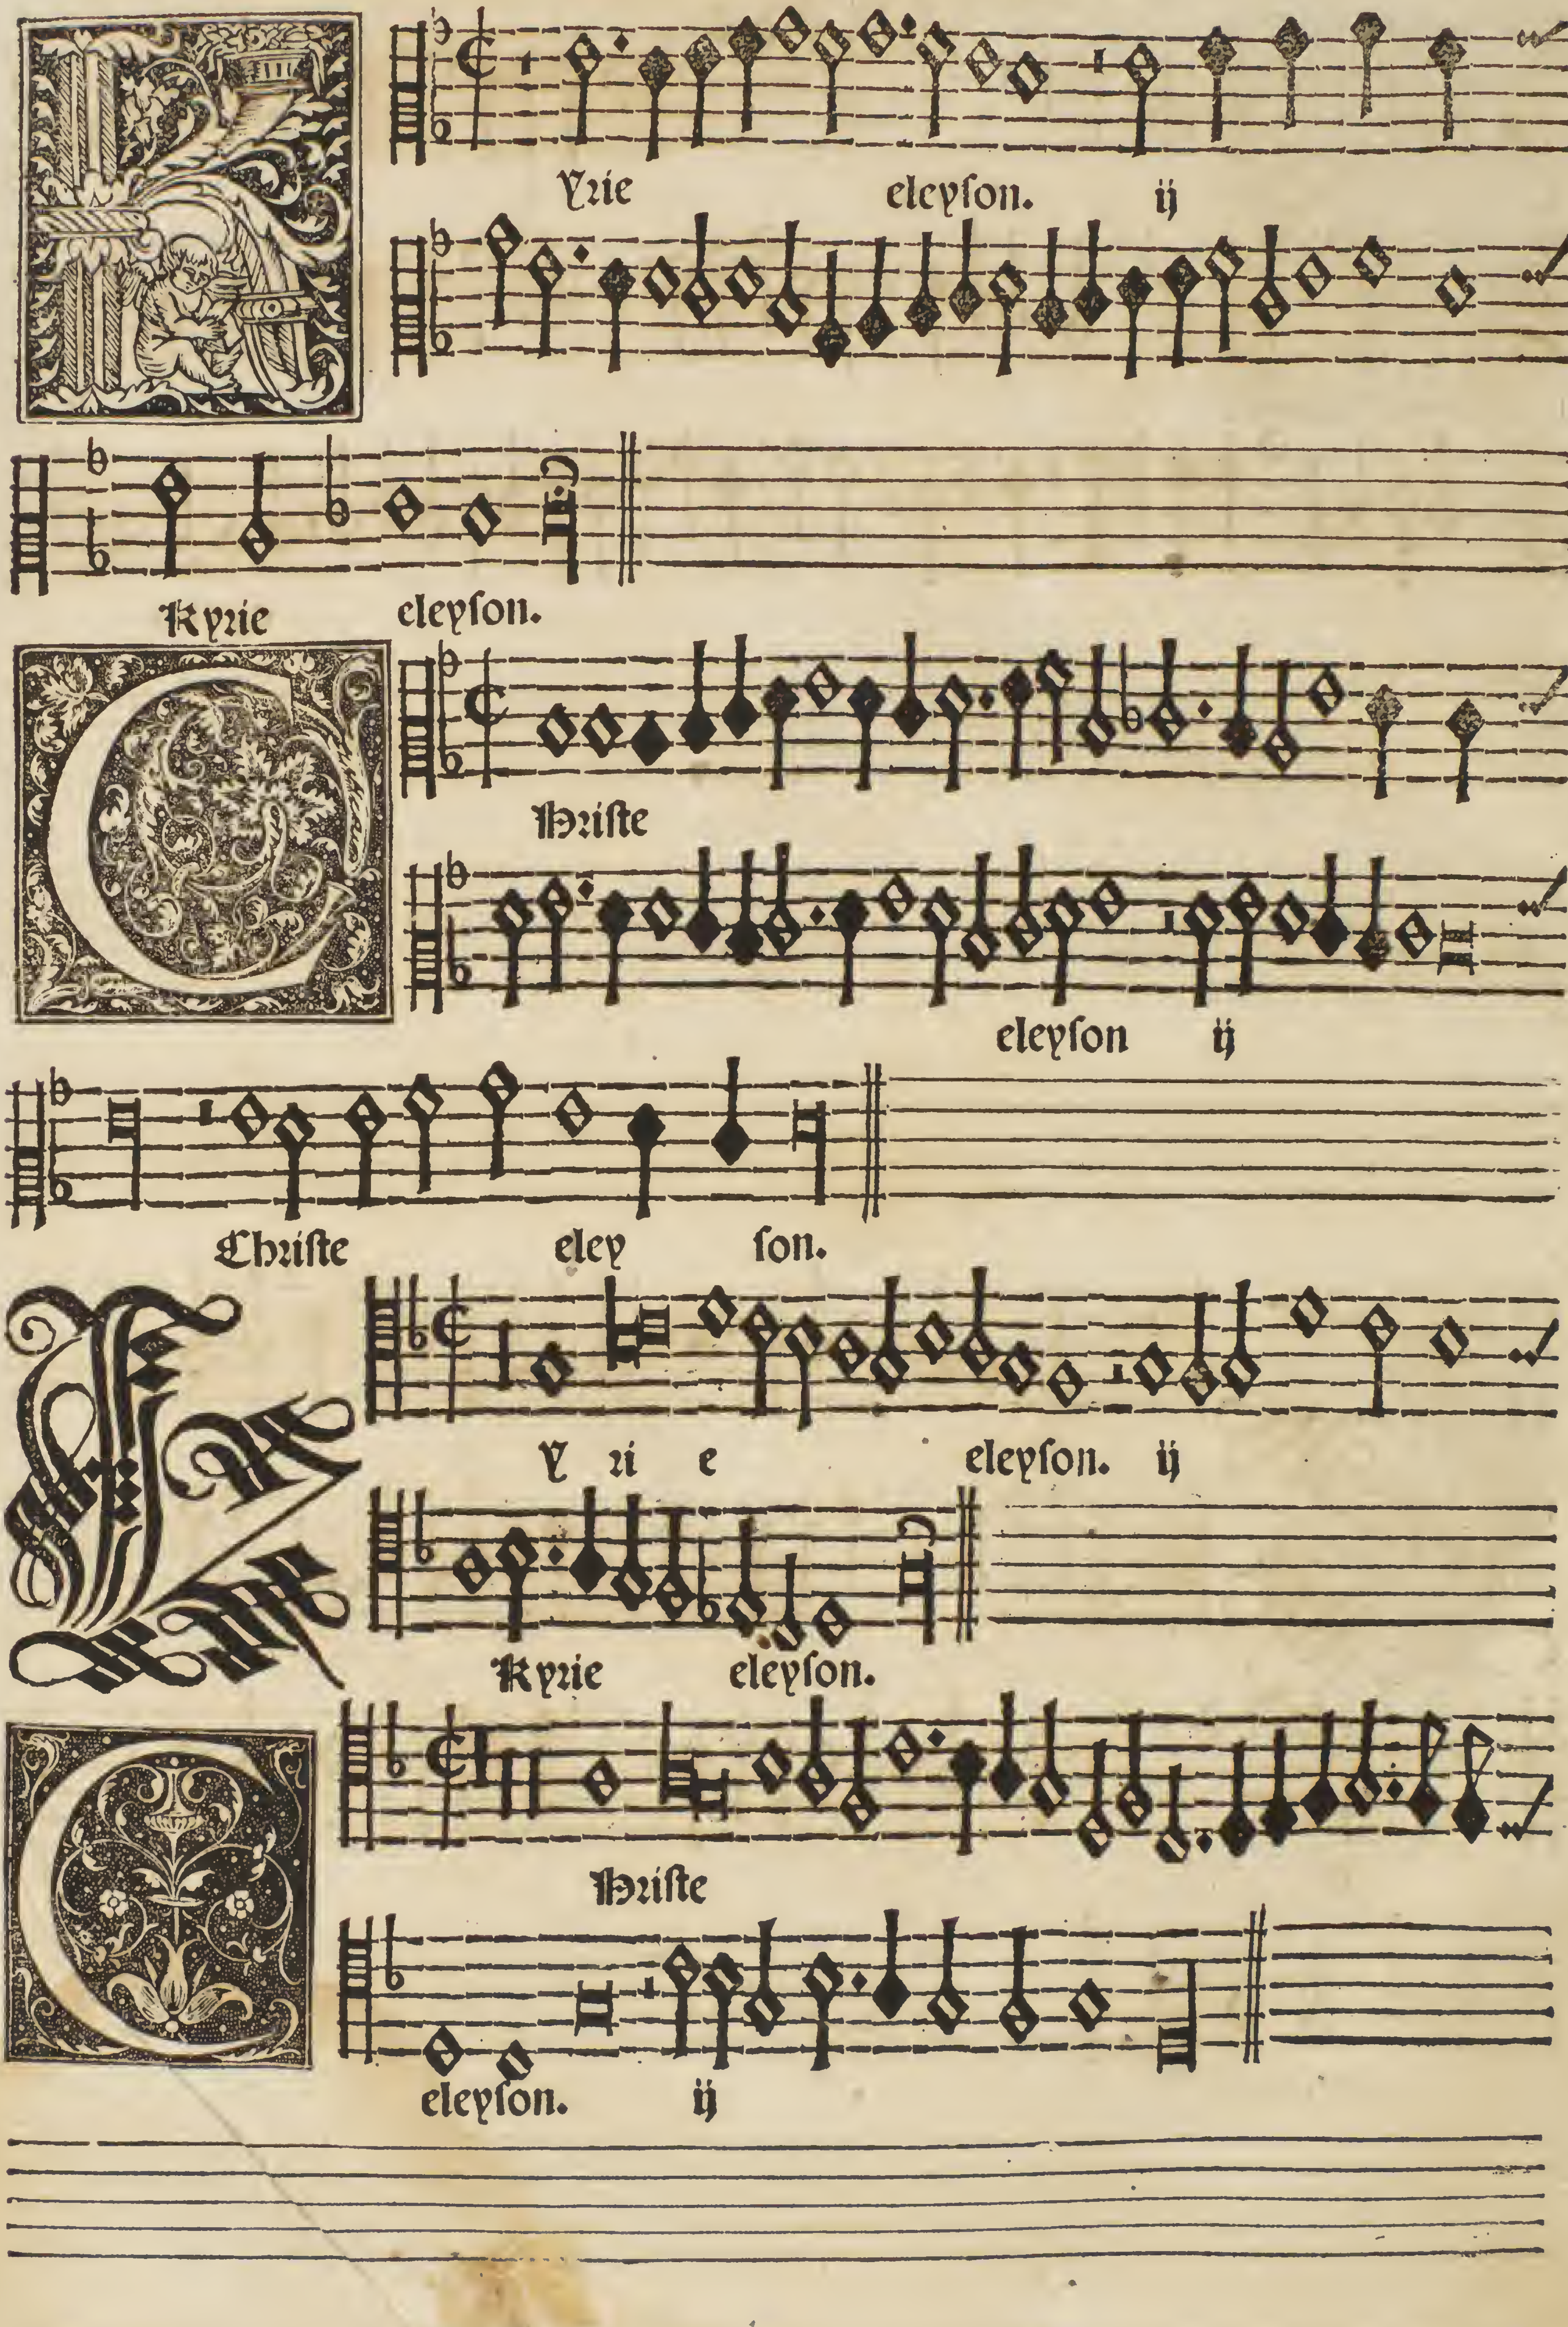

HOMINVM præſtans, atq; excellens ingenium tam multas, tanq; varias artes peperit, vt in hoc terrenum, ac mortale corpus diuinum quoddam lumen è cœlo immiſſum eſſe conſtet: qui enim res tam depreſſa, tanq; rudibus concreta naturis aut de altiſſimis, obſcuriſſimisq; rebus & cogitare potuit, & loqui, quæ ſola eſt animorum, ac propria inueſtigatio, aut tã multa ſenſibus oblectamenta quærere, quæ niſi artificio, ac præceptorum quorundam traditione non conficerentur? Quamobrem affirmare tandem licet, quod & palam negare, vt nonnulli olim fecerunt, nefarium eſt: & turpiſſimum ac propè nihil videntis hominis non confiteri, cœleſtem videlicet eſſe in terris animorum originem, idq; potiſsimùm ex eorum inuentis præclarè conſtare. Verùm culpa plerumq; noſtra accidit, vt animi acies deſidia, atque ocio nimio in hoc quaſi carcere corporis rubiginem quandã contrahat: ex quo fit, vt pleriq; homines in toto hoc ætatis curſu, qui nobis eſt à natura datus, vitam eam degant, quæ mortis imago ſimillima ſit: quorũ in numero q eſſe vult, hunc impune ignauum, ac deſidem eſſe licet. mihi verò nũquam perſuaderi potuit, vt quos verbis refellerem, re ipſa imitarer. Cuius ſi in maximis, præſtantiſſimisq; rebus haud quaquam cognita eſt induſtria, certè in his, quæ liberaliũ artiũ diſciplinis continentur, cum meæ me vitæ ratio ab ineunte ætate intentũ exercuiſſet, elaboraui ſedulò, vt ne hoc meum ſtudium ab his contemni poſsit, qui artem Muſicam tractarent. Quantũ verò profecerim aliorum ſit iudiciũ, equidẽ puto nũquã fore, vt Muſicẽ didiciſſe me pœniteat aliquãdo: eſt enim & à cœlo propè ipſo deducta diſciplina, tam cognata animis, & natura coniuncta, vt vel ad excitandos illos, vel ad ſedandos plurimum poſsit, & in numero liberalium ſtudiorum polita, & laudata magnopere, à ſummis ſapientiſſimisq; philoſophis ex quorum etiam decrèto eſt illa & recepta in vrbibus maximis, & ſummo labore, atque impenſa culta: quæ ſi quandoq; à pleriſq; reprehendatur propterea, quòd animos nimis molles efficere, atq; quodammodo effœminare dicatur, hominum certè culpa eſt, non ſcientiæ, cum eam quaſi lenocinium quoddam cupiditatibus ſuis obſequi volunt, quæ ad componendos animi mores & continendam in officio rationis eius vim appetentem potius, quàm ad ſtimulandam excitandamq; libidinem inuenta eſt, atq; adſcita. Huius igitur cum ſint genera duo, quibus his tẽporibus pleriq; omnes ferè ſtudeant, & vacent, alterum, quod rebus leuioribus, & luſibus quibuſdam, quales ſunt in ſtulto quodam amore deſipientium, cæteriſq; huiuſmodi accommodatur: alterum, quo canuntur laudes immortalis Dei, præclarorumq; virorum, omiſſo priore poſterius hoc mihi pro viribus illuſtrandum ſuſcepi, exiſtimans idipſum magis & officio meo conuenire, & multis gratum futurum, qui Muſices non ignari ſemper aliquid in ea noui cuperent. Sed quoniam ea, quæ feciſſem, videbam tutiora fore ab his, qui huic meæ laudi, ſi modò ea vlla eſt inuidiſſent, ſi patrocinio alicuius præſtantis viri fulta in lucem prodirent, occuriſti tu vnus Coſme DVX optime, cuius nomini primum hunc Librum Octo Miſſarum, cæteroſq;, qui pòſt ſequentur, nuncuparem: ſimulq; arbitrabar hunc propè luſum honeſtamq; animi remiſsionem tibi in magnis rebus occupato fore gratiſsimam, qui ob talis artis peritiam te interdum oblectare poſſes. Accipies igitur Moralis tibi deditiſsimi munuſculũ, illudq; non quale ex ſe, quantum've ſit, ſed ex animo dantis æſtimabis, ita enim & animi tui magnitudine dignum, & à maiorum tuorum natura, ac virtute haud alienum feceris, qui cum cæteros homines, tum etiam præclaros ac nobiles Muſicos olim & amarunt vnicè, & magnis ingentibusq; præmijs cumulauerunt. Vale.
